

### TURNSTILES ACCESSORIES

High barrier with an elegant appearance and solid construction finished with high-quality powder coating. The product is available in the following widths: 1220 mm, 1020 mm, 820 mm, 620 mm, and 420 mm.

### PRODUCT MAIN FEATURES

- ⊕ Dimensions (Length \* Width \* Height): 150 \* 200 \* 65mm
- ⊕ Separate testing of the left and right boot
- ⊕ Testing voltage 30V, 50V lub 100V (default)
- ⊕ Limits setting with DIP switches
- ⊕ Lower limits can be turn off
- ⊕ It has a bracket for mounting on the wall
- ⊕ Power supply 230V AC
- ⊕ Battery 9V

## MODEL SPECIFICATION

| Device type            | Individual ESD Tester                        |
|------------------------|--|
| Purpose                | Testing wrist straps, cords, and footwear    |
| Measuring circuits     | 3 independent (left shoe, right shoe, strap) |
| Test voltages          | 30V, 50V, 100V (default)                     |
| Configuration          | DIP switches (lower/upper limits)            |
| Dimensions (L x W x H) | 150 x 200 x 65 mm                            |
| Power supply           | 230V AC / 9V Battery                         |
